

THE C3 SUITE

C3 Command

Minimize the time, effort, and risk associated with CMMC Level 2 compliance with C3's comprehensive, managed compliance solution

Pass the assessment. Period.

Achieving CMMC Level 2 compliance is no small feat. On average, it takes 12-18 months to build the technical environment and organizational program needed to meet NIST 800-171 and its 320 assessment objectives.

C3 Command gets you there faster.

C3 Command is a fully managed, prescriptive solution that delivers defense contractors predictable timelines and confidence in their CMMC Level 2 achievement.

With a structured architecture and end-to-end management, C3 Command eliminates the technical hurdles, resource constraints, and unexpected challenges that can put your compliance timelines (and achievement!) at risk. We take on the complexity so you can focus on running your business.

We share the responsibility—so you can be assured of success

At the core of C3 Command is a simple promise: We take 80% of the responsibility for your CMMC Level 2 assessment objectives. That means C3 stands behind 234 assessment objectives and shares responsibility for another 38—ensuring nothing falls through the cracks.

By defining your full compliance boundary upfront, we eliminate guesswork and set you up for success from day one.

of Months to Implement NIST 800-171

C3 Command Average:
6-8 months

1	2	3	4	5	6
7	8				

C3PAO Estimate:
12-18 months

1	2	3	4	5	6
7	8	9	10	11	12
13	14	15	16	17	18

A holistic approach to CMMC

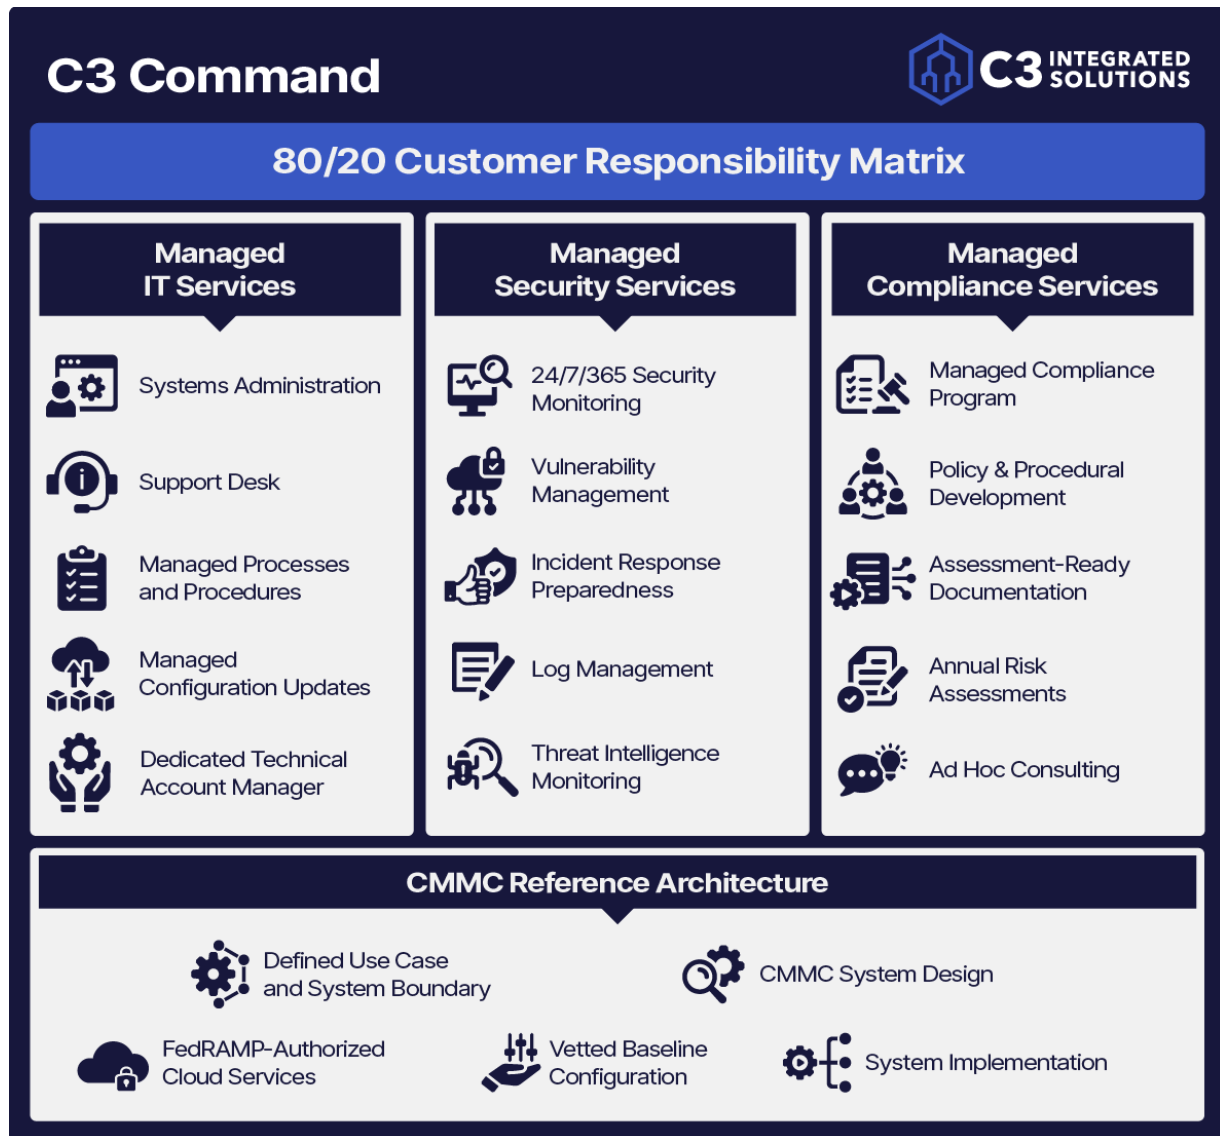

C3 Command isn't just about passing the audit quickly and confidently (though that's definitely part of it!)—it's about long-term compliance. We implement a proven, CMMC-compliant reference architecture to address every aspect of your compliance journey:

- **Navigate** both technical and non-technical CMMC requirements for you
- **Implement & configure** a proven CMMC-compliant IT environment
- **Define** required policies and procedures
- **Operate** day-to-day IT services in a compliant way while keeping your environment in peak shape
- **Monitors** your environment 24/7/365 with expert cybersecurity professionals
- **Updates** configurations, tools, and processes proactively as CMMC recommendations evolve
- **Develops/collects** documentation and evidence required for CMMC
- **Manages** your compliance journey with a structured plan and continuous support

The C3 difference

For defense contractors looking to achieve CMMC Level 2 compliance quickly and with minimal risk, C3 Command delivers a complete, managed compliance solution. We take control of your compliance journey—driving the decisions, architecture, and managed services needed to meet every assessment objective.

With C3 Command, you get more than a compliance plan—you get peace of mind. We don't just help you pass; we help you stay compliant, all while maintaining a secure, stable, and high-performance IT environment for your defense business.

Your Compliance. Our Commitment.

C3 is the leading IT, cybersecurity, and compliance provider to the Defense Industrial Base, fundamentally committed to securing our nation's cybersecurity assets and helping our economy – and your business – grow.

C3 is an AOS-G Partner, a CMMC Registered Provider Organization (RPO) and one of the few companies to successfully support the DIBCAC assessment of multiple CMMC Third-Party Assessment Organizations (C3PAO).
