

CMMC Advisory Service:

Precision Guidance to CMMC Success

The Stakes Are High for Federal Contractors

For federal contractors, achieving CMMC compliance is essential to staying in the game—and securing your place demands a trusted, experienced partner to navigate the process. The path to certification can be complex, but with the right guidance, your team can become fully prepared and confidently certification-ready.

What Is Changing?

To continue contracting with the U.S. Department of Defense (DoD), organizations must currently follow NIST SP 800-171 best practices. Starting in 2025, however, contractors must meet the stringent requirements of the CMMC's three-level program. That includes mandatory third-party assessments at Level 2 (those organizations handling Controlled Unclassified Information (CUI)). As a federal contractor, you should rely on expert guidance to help ensure every step aligns with your compliance goals.

How Coalfire Can Help

Coalfire Federal was among the first group of companies to be selected as a CMMC Registered Provider Organization (RPO) and CMMC Third-Party Assessor Organization (C3PAO). Regardless of where you are in your compliance journey, our CMMC advisory and assessment services can help you effectively prepare for your CMMC Certification.

Why Coalfire Federal?

Advisory & Assessments:

Coalfire Federal is your go-to CMMC partner, offering not just assessments but also comprehensive advisory services. As a certified C3PAO and RPO, we bring extensive expertise to preparing you for an official CMMC assessment.

Authorized C3PAO:

Proven experience conducting Joint Surveillance Voluntary Assessments (JSVAs) as an authorized C3PAO ensures a streamlined and efficient process, based on first-hand experience.

Unmatched Experience:

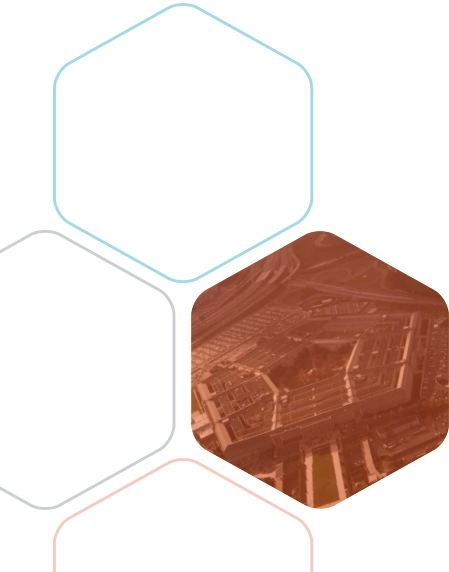

Benefit from our unmatched experience guiding organizations through the CMMC compliance process as well as having performed several Joint Surveillance Voluntary Assessments (JSVAs).

We Get You CMMC Assessment-Ready

No matter where you are in the CMMC compliance journey, Coalfire Federal's expert advisory and assessment services will guide you confidently to certification. From precisely defining your Controlled Unclassified Information (CUI) boundaries to identifying security gaps and supporting essential remediation, we offer a streamlined, comprehensive approach to meeting federal cybersecurity standards. With Coalfire Federal as your partner, you'll navigate each requirement with clarity, efficiency, and confidence on your path to CMMC success.

Our Process:

- ✓ **CUI Boundary Analysis**
Defining the boundaries of CUI is a critical first step to achieving CMMC compliance. Our expert team will work closely with you to identify and assess the systems, processes, and data environments that fall within the compliance scope.
- ✓ **CMMC Gap Analysis**
We evaluate your organization's current readiness state against the practices required for your targeted CMMC level" to enhance flow and clarity.
- ✓ **CMMC Remediation Support**
Achieving certification-ready status requires more than identifying gaps—it demands targeted, effective action. Our team provides remediation support tailored to close identified gaps in CMMC compliance.

At Coalfire Federal, we're dedicated to simplifying your path to CMMC certification, bringing industry-leading expertise, proven methodologies, and a client-centered approach to every engagement. Our team is here to ensure you not only meet today's standards but are prepared for tomorrow's requirements, empowering your organization to remain secure, competitive, and ready for success in federal contracting. Trust Coalfire Federal to be your partner in compliance—reach out today to start your journey to CMMC certification with confidence.
