

Introducing our cmmc compliance Self-Assessment TOOL

WHAT

“

Providing clarity on CMMC alignment today, and the actions needed to strengthen readiness.”

SELF-ASSESSMENT

A short, structured questionnaire that helps you understand your readiness for CMMC requirements linked to DoD contracts, including expectations around CUI and FCI.

READINESS REPORT

Complete the assessment and receive an instant report with scores, a visual summary of strengths and gaps and practical actions to prioritize next.

CMMC ALIGNED COVERAGE

Assesses readiness across six key areas, from DoD engagement and NIST SP 800-171 alignment to technical controls, risk validation and governance.

HOW

CMMC compliance only delivers value when it is embedded in practice, across governance, technical controls and day-to-day operations. This assessment brings structure, clarity and direction to that journey.”

”

STATEMENT-BASED SCORING

Rate each statement from 1 (strongly disagree) to 5 (strongly agree) to generate readiness scores across each area of CMMC.

CLEAR PRIORITISATION

Results highlight where improvement effort is most needed, supporting targeted action planning and leadership decisions.

BENEFITS

LRQA’s CMMC Compliance Self-Assessment tool enables organisations to move beyond uncertainty and reactive compliance toward structured, evidence-based CMMC readiness.

It provides a fast, structured way to understand current alignment to CMMC requirements and where gaps may impact contract eligibility.

The outcome is a practical roadmap for improvement, with next steps that can be acted on immediately.

OUTPUTS INCLUDE

1

Readiness scores across key CMMC-aligned areas

2

Personalised visual summary of strengths and gaps

3

Practical next steps tailored to your responses, including priority actions

WHEN AND WHERE

AVAILABLE NOW
