

Capabilities & Partner Overview

The Cuick Trac Managed Enclave (CTME) is the fastest and most cost-effective path to CMMC Level 2 compliance—trusted by top defense contractors since 2018.

About Us

CTME is a comprehensive, US-based, fully managed CUI enclave with FedRAMP Moderate Equivalent status. Our platform enables Defense Industrial Base (DIB) contractors and federal suppliers, including Small and Medium-sized Businesses (SMBs), to efficiently meet compliance mandates while minimizing operational disruptions.

What Sets Us Apart?

Secure Cloud-Hosted Enclave

Securely segment CUI/FCI data without reengineering existing IT environments.

Rapid Deployment

Environment can be ready in as few as 15 business days once client domain is selected and CUI access list is received.

Cost-Effective

Save your client thousands or more on implementation and management through all-in, transparent costs, without increasing staff.

Expert Advisory Support Available

Direct access to cybersecurity and compliance professionals, if needed.

Streamlined Compliance Management

Automate and simplify adherence to CMMC Level 2, NIST SP 800-171, and DFARS 252.204-7012.

Become a Partner

Our partner program provides new revenue opportunities, expert compliance guidance, marketing and sales support, lead-sharing, and dedicated training to help you sell and support the Cuick Trac Managed Enclave.
